

January 7, 2009

Dear clients and colleagues,

It is with great sadness that I announce that I will be **closing my private practice** at the end of **May, 2009**, to relocate to **Geneva, Switzerland**, where my wife has obtained a position with the **World Health Organization**.

Following the move, I will be available by [email](#) and **Skype** (a free long distance computer-to-computer chat service) to help ease the transition. In some cases, I may be able to continue providing care long distance pending clarification of some medicolegal issues regarding this. I will continue with continuity of care, assistance transferring to a new provider, help with prescription refills, records requests, etc. I have been honored to be part of your care. As the time to move approaches, please peruse the list of names of recommended **referrals** and set up an initial appointment. You may also consult your plan to determine who takes your insurance, if applicable.
